

MANIFEST

MANIFEST DISTILLING is Jacksonville's ONLY full scale distillery and Florida's first and only certified Organic Facility. Our craft distillery is located downtown Jacksonville less than one mile from the Jacksonville Jaguars and all our products are distilled on site.

ORGANIC

What does it mean to be organic? Well, everything from our farm partners to the materials used for sanitation and pest control must comply with USDA standards of organic certification. We chose to be an organic facility to help support sustainable agriculture. Just because we are an organic facility doesn't mean all our products have to be organic. Our Potato and Citrus vodka are non-GMO and gluten free but don't carry the organic status.

PRODUCTION

We use all American made equipment, North American raw materials (with the exception of certain Gin botanicals) and use no additives, coloring agents or sweeteners (except in our liqueurs).

LOGO/PACKAGING

Our name, Manifest, was born from the idea that the sum is always greater than the parts. We hold collaboration in the highest regard and always want our spirits to do the talking. So much so that we designed our packaging to have minimal label coverage. Our classic bottle shape makes it an easy pour for bartenders and the 14" long label that wraps over itself gives consumers a nice tactile feel, while allowing our spirits to shine through.

SPIRITS

Our development team approaches spirit production from a unique angle as typically seen in this field. We pull from a diverse knowledge base of wine making, European distillation, and brewery fermentation to achieve a balance rarely talked about in the spirits world. Everything we make has been crafted to have a beginning, middle and end which ultimately drives a balanced spirit.

POTATO VODKA

80 PROOF

Our Non-GMO, Gluten Free Potato Vodka is made using Idaho Russet Potato's. Why? Well, because we happen to think the Poles got it right the first time, except their potato's were from the wrong country. We guarantee this is the smoothest vodka you'll ever taste. The potato lends a silky, creamy mouth feel with zero burn or aftertaste.

AWARDS:

SF World Silver, ADI Bronze

FLORIDA CITRUS VODKA

80 PROOF

Our hand crafted Florida Citrus vodka utilizes locally grown oranges, lemons and grapefruit all sourced within 45 miles of the distillery. We macerate the pressed fruit remnant in our potato spirit for 72 hours, decant off the fruit and then redistill for the purest, most clean expression of citrus vodka you'll ever taste.

ADI Bronze

GIN (ORGANIC)

90 PROOF

Manifest organic new-world southern style Gin is becoming popular for converting those who "typically don't like gin". Since Manifest is based in Florida, dried lemon and orange peel are used to create a bright crispness. Layers of Juniper, Angelica Root and Guatamalan Green Cardamom are used to pay homage to a classic dry style gin. This provides a wonderful balance of crisp and dry. The ultimate cocktail Gin.

AWARDS:

NY World Dbl Gold, ADI Gold, San Fran Silver

BARRELED GIN (ORGANIC)

90 PROOF

Combining Manifest's award winning organic Gin recipe with brand new charred oak and previously used Manifest barrels produces the perfect balance of oak and traditional whiskey spices. What makes our barreled Gin recipe so unique is the combination of previously used barrels, from Rye and Bourbon to Malt Whiskey and Steele Chardonnay. Affectionately referred to as the gin drinkers whiskey.

AWARDS:

ADI Silver

RYE WHISKEY (ORGANIC)

100 PROOF

This award winning organic wheated rye whiskey balances traditional rye spice with the tropicality that can only come from wheat. Mashed, fermented and distilled in our facility this whiskey is dangerously smooth at 100 proof. Aged from 21-28 months in charred, new American White Oak barrels, this whiskey is drinking far beyond its years.

AWARDS:

NY DBI Gold, ADI Gold & Best in Category
